

Nerdy Science - *Pirate Treasure Hunt* Medium

1. Write down your first and last name. How many letters are in your first name? How many letters are in your last name?
2. How many letters total are in your full name? (Clue: add the number for your first name to the number for your second name.)
3. Do you have more or less letters in your name than your mom or dad? (Clue: write down mom and dad's names and count their letters.)
4. Draw a pie cut in half. How can you get 4 slices from the pie you cut in half? (Clue: what would happen if you cut your halves in half again?)
5. Pretend you have a pie with 8 slices. If you gave a slice of pie to everyone in your family, how many slices of pie would you have left? (clue: subtract the number of people in your family from the total number of pie slices.)
